- Services offered by Editage: JP-EN Translation + Editing + Transcription + Designing and Typesetting + Printing

The following are the key questions of the Forum:

1. ESD/EFA Synergy
   - Why is an EFA-ESD synergy important for forging a sustainable future of the region?
   - How does it happen, in what context, and under what conditions?

2. ASPnet: Exchange and cooperation for global issues
   - What are the contributions of ASPnet schools towards EFA/ESD and for a sustainable future of the Asia-Pacific region?
   - What are the modalities of exchange between them?

3. NFE capacity building
   - How can the importance of NFE in contributing to EFA and ESD goals be highlighted?
   - What can be done to build the capacity of the NFE sector through international cooperation?

**Day 1**

Special Focus Group Discussions and Pre-Event: Learning about the local spirit and efforts in the community development of Kagamimachi

On the morning of 16 February 2011, two Special Focus Group Meetings were organised for ESD-COR and ACCU-JIRC-ARTC NFE Capacity building by invited participants in order to discuss how to strengthen and deepen working modalities in order to contribute to the goals that the Forum was trying to achieve. The pre-event of the Forum organized in order to pave the way for the Forum participants for discussion especially:

- Learning at community level on voluntary basis based on traditional values
- Factors of economy, society, environment and culture to be reflected in community development.

Mr. Torada Hiroshi, President of the Non-Profit Organisation, Bimurbi Club, gave an impressive presentation titled “Non-Formal Learning for Community Development: The Case of Kagamimachi, Teshima-ku, Tokyo.” For many participants, this was the first opportunity to learn about the spirit of “Iri”, which was introduced as the foundation of their community development.
